PROFESSIONAL SUMMARY

Motivated and self-driven MERN Stack Developer with hands-on experience in building full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Completed an 8-month internship at Softroniics, Perinthalmanna, where I gained practical experience in web development, REST API integration, database management, and responsive UI design. Developed projects including Planora, a full-stack travel planner application. Passionate about learning new technologies, solving real-world problems, and contributing to innovative software development teams.

PROJECTS

Planora – Travel Planner Website

Technologies: React.js, Node.js, Express.js, MongoDB, JWT Authentication

- Developed a full-stack travel planning web application using the MERN Stack.
- Implemented secure user authentication and authorization using JWT.
- Created destination exploration, trip planning, trip booking, and booking history features.
- Developed REST APIs for data management and user operations.
- Integrated MongoDB for storing destinations, user data, bookings, and enquiries.
- Built responsive and user-friendly interfaces for seamless user experience.
- Added admin panel functionalities for managing destinations and user enquiries.

Personal Portfolio Website

Technologies: React.js, HTML, CSS, JavaScript

- Developed a responsive personal portfolio website to showcase skills and projects.
- Implemented modern UI design with mobile-friendly layouts.
- Optimized performance and user experience across devices
